

# VEN

## Virginia Environmental Literacy Network

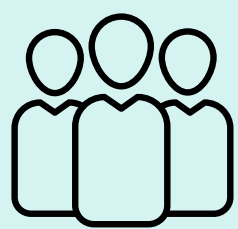

### Who are we?

VEN is a network representing strategic parts of the statewide environmental education ecosystem

### What do we do?

Strengthen relationships & collaboration across state-wide formal & non-formal networks of educators & stakeholders to cultivate the conditions for equitable environmental literacy efforts to grow and thrive.

### Why do we do it?

To ensure every person in Virginia has access to high-quality environmental education, including but not limited to outdoor education experiences & opportunities to take action through the school curriculum & within local communities.

### Main Goals

Improve and enhance communication channels at the state-level to advance school district-level & community environmental literacy programming
